Sir:

Applicants, by their attorney, hereby request a correction to Fig. 1 of the patent drawings.

Attached hereto is the corrected version of Fig. 1.

This correction is requested to conform input waveform 103 to the filtered frequency content waveform 115 and the bandwidth limited acquisition waveform 108. The mistake to be

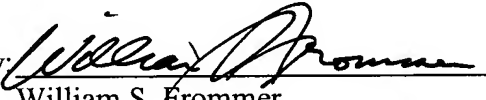

corrected is typographical in nature and is of a minor character. It is submitted that the description of Fig 1, set out in the specification, together with the waveforms 108 and 115 make this requested correction to waveform 103 self-evident. It is further submitted that this correction does not affect the scope of the claims, the description of the invention or the enablement of the patent disclosure.

This error to be corrected was inadvertent and not occasioned by any action on the part of the Office. The requisite fee required by 37 CFR 1.20 (a) is enclosed.

The issuance of the requested Certificate of Correction is respectfully solicited.

Respectfully submitted,

FROMMER LAWRENCE & HAUG LLP
